

**Witt Industries Waste & Recycling Containers Are Ideal for Outdoor Applications
Featured at NRPA Congress & Expo, Booth 1557**

Cincinnati, OH – Witt Industries offers a wide variety of durable metal waste and recycling containers for outdoor use, which will be featured in booth #1557 during the 2010 NRPA Congress & Expo. With styles to match any décor, Witt containers are an ideal addition to existing streetscapes or for new projects. Manufactured of durable steel with vandal-resistant features, these high quality products complement existing site furnishings in outdoor locations such as stadiums and arenas, parks and recreational facilities, city streetscapes, office building exteriors, multi-family residences, school or church grounds, and more.

Stadium Series recycling and waste receptacles are made of heavy gauge steel with durable plastic liners for years of trouble free service. In addition to powder coating in a variety of colors, Stadium Series receptacles can be custom painted to match existing colors. Logos can also be added, as can Plastisol® bases to protect concrete where the receptacles are positioned.

Oakley series Carrousel receptacles feature a sliding door for easy servicing even in tight quarters. Lid options available include a flat top, a dome top, a rain cap or an ash top, allowing flexibility to suit any environment, and protect against the elements. A 36-gallon black plastic liner, a lid attachment kit and an anchor kit are supplied with each unit, ensuring long, trouble-free service life.

Wydman Series recycling containers are constructed of heavy duty slatted metal that is decorative and functional to withstand even the harshest weather. These decorative containers include a durable black plastic liner and are available in 24 and 36-gallon capacities. A recycling logo is standard on all cans, yet custom logos can also be added for brand-building.

“We offer a full range of recycling and waste containers for outdoor applications” says Witt President Tom Dorger, “and each was developed to address specific market needs. It has never been easier to provide containers for waste, recycling and compostable materials that are both aesthetically pleasing and functional.”

Witt Industries is a woman owned manufacturer of a full range of metal waste and recycling receptacles for indoor or outdoor environments. Combining functionality with aesthetics, these high quality receptacles serve as site furnishings because they enhance the surrounding décor. Witt Industries products are used in many commercial and institutional settings including hotels and motels, commercial office lobbies and atria, hospitals, casinos, schools, restaurants, stadiums, arenas and more.
